PROJECTS

Personal Website

Frontend Development

2023

HTML, CSS, Javascript

- This project is a personal portfolio website designed to showcase my skills and experience as a frontend developer.
- The website is built using HTML, CSS, and JavaScript.

Bus Ticket Booker

Fullstack Development

2025

React, Vite, Routers

- This project is a web-based bus and train ticket booking application built with React.
- It functions as a Single Page Application (SPA) utilizing React Router for seamless navigation between different booking sections.
